

## Travel to Scotland, England, Edinburgh, York, Stratford & London

“Creative Creatures: A Survey of Western Expression” is designed to investigate the many ways that humanity has exercised the practice of creativity in the western world. From creating civilizations, to building architectural structures and monuments, to writing, theater, and visual art, western people have constantly strived to not only exist in the world, but to embellish the world around them. Through their travels in Scotland and England, the class will delve first hand into how creativity has shaped the island of Britain. The immersion into breadth and diversity of western creativity will provide students with a direct and in-depth experience that will provide context for their studies.

The cost is \$4,300 for 10-14 students, \$5,325 for 9 students & \$5,585 for 6 students. We must have a minimum of 6 students registered for the trip. The course is taught and chaperoned by Mrs. Blondia and Mr. McCue.
