

Travel to **St. John's Island National Park**

This Caribbean trip will expose our students to the natural beauty of the islands and the historical seaways of colonization and trade. Students will explore living reefs and sea life, indigenous music and art, and the amalgamation of multiple cultures. There will be plenty of opportunity to observe and experience the flora and fauna of this tropical paradise. Students will live in glamorous camping accommodations with opportunities to cook as well as occasionally dine out. Students will delight in typical Caribbean cuisine offered in the Tree Lizards Restaurant located in campground.

The cost is approximately \$3,500 per student. We must have a minimum of 6 students registered for the trip. The course is taught and chaperoned by Mr. Blondia and Mr. Ivankovich. You may contact them for more information at either jblondia@leelanau.org or wivankovich@leelanau.org
