## **Other Considerations**

Parents should check their insurance regarding coverage of their child's belongings while away at school; the school is not responsible for loss or damage to the property of students. Students are encouraged to leave valuable personal belongings at home.

There are lock boxes provided in each room for students to keep valuables. The student should provide a lock for these boxes and provide a key or combination to the Residential Life Instructor should their copy be lost or forgotten.

If students intend to store belongings during the summer, please provide sturdy, snap-lid bins that will protect belongings from humidity and curious small animals.
